Firstly, let's talk about Garnacho's overall rating, which is 63. While this may not seem particularly high, it's important to remember that he's still a young player with room for growth and development.

His potential rating of 84 shows that he has a lot of promise and could become a valuable asset to any team.

However, like any player, Garnacho is not without his weaknesses. His crossing ability, while not terrible, could use some improvement, with a rating of 68. Additionally, his heading accuracy is rated at 62, which could be improved upon.

In terms of playing style, Garnacho is best utilized as a left flanker in a 4-3-3 or 4-2-3-1 formation. This allows him to use his speed and agility to run down the left flank and deliver crosses into the box. Alternatively, he could be used as a second striker in a 3-5-2 formation, where his speed and finishing ability can be leveraged to create scoring opportunities.

In summary, Alejandro Garnacho is a promising young player with a lot of potential in FIFA 22. With his speed, agility, and shooting ability, he can be a solid addition to any team. While he does have some areas for improvement, such as crossing and heading, his overall skills and potential make him an attractive choice for players.
