

O O bet365

Subway Surfers is a classic endless runner game. You play as Jake, who surfs the subways and tries to escape from the grumpy Inspector and his dog.

You'll need to dodge trains, trams, obstacles, and more to go as far as you can in this endless running game. Collect coins to unlock power-ups and special gear to help you go further every time in Subway Surfers. Furthermore, coins can be used to unlock

There are 9 squares involved with the 7, so $480 \times 9 = 471$ other squares. These other squares contain the 92 other mines. So the number of grids with a 7 at a particular spot is $8(47192)$. That is out of a total of $\binom{480}{99}$ different grids.

Probability of getting a 7 in Minesweeper - Math Stack Exchange

math.stackexchange : questions : probability-of-getting-a-7-in-minesweeper

We have $492556 = 125244$ ways for an easy grid to have an 8 somewhere. Out of the 1.88 trillion total easy grids, this gives a probability of about 610×10^{-12} . So, very rare indeed!

probability - How rare is it to get a $\$8$ in minesweeper?

(Bruh reputation ...)
