Sudoku is a puzzle game where you arrange numbered sudoku blocks in various rows and columns. You are given a 9x9 grid with some numbers already filled-in. Fill the remaining squares with any number from 1 to 9. The puzzle is complete when each row, each column and each 3x3 square within the puzzle contains the numbers 1-9, with each number appearing only once. Analyze the intersecting rows and columns to find out the missing numbers and place them in the series to complete the sudoku puzzle. There are varying difficulty levels in this game, so choose the one that suits your mood and enjoy this satisfying puzzle experience!

How to play Sudoku?

Use your finger or left mouse button to select a tile. You can either use your numeric keys or the in-game panel to fill in a number. You must figure out the proper digits for each space. Every row, column, and section must contain one of every single digit. If you get stuck, use a hint!

Who created Sudoku?

Sudoku was created by InfinityGames, a game development team based in Portugal. Play their other puzzle games on Poki: Infinity Loop: Hex, Spider Solitaire, Energy, Infinity Loop, Merge Shapes, Shapes, Sudoblocks, Solitaire and Wood Blocks 3D

O que é Roll-over?

Roll-over é um termo financeiro que refere-se ao processo de prorrogar o prazo de um empréstimo, geralmente, associado a uma taxa adicional. Isso significa que, ao prorrogar a data de vencimento, haverá um aumento no custo de financiamento, aumentando assim o custo total de pagamento do empréstimo no prazo revisado.

Quando e onde ocorre o Roll-over?

Embora muitas negociações tenham uma data de expiração, existem situações em que elas podem ser prorrogadas automaticamente. Nesses casos, os lucros ou prejuízos serão liquidados antes do encerramento definido e um novo prazo será fixado. Esta prática é mais comum em situações de rollover de opções ou contratos futuros, sobretudo no mercado financeiro.
