In multiplayer games, &#231; in-game chat allows players to communicate with others in real time&#231;, making interactions seamless. The mode of communication can be text, voice, or video.&#231;

In-game chat is &#231; usually text- or voice-based&#231;. Players can type message or transmit their voices through the game and other people in the game can choose to read or hear it. In-game chat doesn't involve video. You won't be able to see the faces of the people you are chatting with.&#231;
