<p>Terrible game.</p>
<p></p>
<p></p>
<p></p>
<p>I just bought this, as 🍏 I was looking for a game that is exac
tly this premise. Alas, when I found this game, I bought it 🍏 and I was
extremely disappointed. Just loading up the game took forever, and I kept havin
g to close and reopen 🍏 it. When it finally opened, it took 17 minutes
just to do that. Yeah. Now it's not like I have 🍏 a terrible laptop
, my laptop is really good and I've never had any issues with such a thing.
Then, upon 🍏 opening the game, I couldn't look around because the d
efault settings were set to ultra. For the record, I don't 🍏 really
have an issue with game devs doing this, but it leaves a bitter taste in your m
outh. I had 🍏 to set the quality to very low and even then it was still
so laggy. It was 2 fps at 🍏 the most (like, not stretching the truth h) Tj T* BT /F

ite literally just pixels. The game was also very repetitive, so even if you hav
e a NASA super-computer 🍏 you will get bored of this really quickly. I
do not suggest this to anyone, no matter how enticing it 🍏 looks. It wa
s terrible and so incredibly frustrating; especially because I kept having to me
ddle with the settings and make 🍏 the game actually playable (spoiler a) Tj T* BT

so 🍏 happen to have amnesia this game would be quite enjoyable, but unf
ortunately I see a lot of people having the 🍏 same disappointment as I
am. I really wish I could have this refunded, even just half of the money I 
7823; spent on this. I'm unsure if Steam would let that happen, so for now
