<p></p><p>So, I got a soft blob-like thing, and I was tossing

with it in a prototype for a very long 💪 time. It turned out that it s

tough to invent something new. Finally, I got an idea of a fat cat 💪 th

at likes to blow balloons. The name of the game is Puffy Cat, and I ll be glad i

f you play 💪 it on Poki!</p>

<p>The final version of the game has 150 levels, 26 hats, 18 balloon skins

, 225 sprites, 35 sound 💪 fx, and plenty of fun! And we agreed with the

publisher to make two more games in the Puffy Cat 💪 series with new ga

me mechanics and content.</p>

<p>What I like the most about Defold is that:</p>

<p>I use Defold IDE to make 💪 levels, i.e. I have quite a few pre

-made game objects to construct a level. Every level is a collection with ԁ

70; references to these game objects. All these levels linked to the parent col

lection as Defold s collection factories. It s an easy 💪 way to make le

vels without any external editors like Tiled etc.</p>

<p>All I need to run a game from sources is 💪 to download Defold

IDE and build/run a project.</p>
