About This Game

PICO PARK is a cooperative local/online multiplayer action puzzle game for 2-8 players.

The rule is quite simple: "Get 5 keys and get to the goal and clear", but all 48 levels have special gimmicks designed specifically for 5 player multiplayer. At most levels, different gimmicks will appear as you move forward, and you will need to consult with your 5 peers and think about new ways to cooperate. This version is essentially a port of the one we released on the 5 Nintendo Switch in 2024. However, it's not just a port, it now supports online play. The 2024 version of this link has been renamed "PICO PARK: Classic Edition". [Flexible Level] Each level of PICO PARK can be cleared when players get the key, unlock the door and all players reach it. But, every level requires cooperation to complete. [Battle Mode] Co-op play is the main work of this game, but let's compete with friends in BATTLE MODE once co-op play is completed. [Endless Mode] Even if you complete all 48 stages, you can play ENDLESS mode to aim at high score by collaborating with friends. By collaborating with friends, your score will grow faster. [Online Play Mode] You can play together online with people who are far away from you. However, this is a 5 player game where communication is very important, so we recommend using Discord or Zoom to play while talking. [TecoGamePad] TecoGamePad change your smartphone to gamepad (for local play mode) Android: Sorry, It is no longer available
