<p>Minecraft Classic is an online version of the famous open-world sandbox building game. It is a remake of the original 📉 Minecraft and was released for its 10th anniversary by the developer Mojang. In the game, players can build in creative 📉 mode using 32 available blocks. The game has a multiplayer feature so you can play with up to 8 friends.</p>

<p>History</p>

<p>Minecraft 📉 was first released to the public on 17 May 2009. Today it is published in the exact state of its 📉 initial release. This means that there are only 32 blocks that you can build with, and all the original bugs 📉 are in there! So if you are used to the latest version, it can be quite a shock to see 📉 how the game has evolved. To quote Tom Stone from Mojang "With just 32 blocks to build with, all the 📉 original bugs, and an (inter)face only a mother could love, Minecraft 2009 is even more glorious than we remembered!"</p>
