Counter-Strike: Global Offensive

A classic CSGO professional match comprises two teams playing to win 16 rounds first. If they both reach 15, an overtime process takes place. This eliminates ties as a game-end condition and ensures a winner for every match.

An operating system (OS) is the program that, after being initially loaded into the computer by a boot program, manages all of the other application programs in a computer. The application programs make use of the operating system by making requests for services through a defined application program interface (API).
