Minecraft Classic is an online version of the famous open-world sandbox

building game. It is a remake of the original Minecraft and was released

for its 10th anniversary by the developer Mojang. In the game, players can

build in creative mode using 32 available blocks. The game has a multi

player feature so you can play with up to 8 friends.

History

Minecraft was first released to the public on 17 May 2009. Today

it is published in the exact state of its initial release. This

means that there are only 32 blocks that you can build with, and all the original

bugs are in there! So if you are used to the latest version, it can

be quite a shock to see how the game has evolved. To quote Tom Stone

from Mojang "With just 32 blocks to build with, all the original

bugs, and an (inter)face only a mother could love, Minecraft 2009 is even more

glorious than we remembered!"
