To check for the existence
of a limit of a function at a point, you can use the following conditions:
The function must be defined in a punctured neighborhood of the point.

What are the conditions
to check for existence of limit of a function at a ...

Determining When a Limi

How do you know a limit does not exist? In short, the limit does not exist

if there is a lack of continuity in the neighbourhood about the value of interest.

Recall that there doesn't need to be continuity at the value of interest, just the neighbourhood is required.

Determining When a Limi
