Flags is a thinking game where you are presented with a random flag, and you must guess which country it belongs to. There are six main game modes: "Standard" (you guess the country from a flag), "Reverse" (you guess the flag from a country name), "Multiple Choice" (you choose from three flags), "Image" (you guess the country from an image), "Sound" (you guess the country from a sound clip), and "Text" (you guess the country from a text clue). The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn. And the more questions you get right with, the more points you will earn.

Similarly but in reverse: The game will show you a country name and present you with three flags to choose from. The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn.

For the "Reverse" mode, you get a country name and three flags to choose from. The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn.

For the "Multiple Choice" mode, you are given three flags and asked to identify the country. The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn.

For the "Image" mode, you are given an image of a flag and asked to identify the country. The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn.

For the "Sound" mode, you are given a sound clip and asked to identify the country. The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn.

For the "Text" mode, you are given a text clue and asked to identify the country. The quicker you answer, the more points you will earn. And the more questions you get right with, the more points you will earn.
