If you want to download an APK file from the Play Store for a specific device, architecture, or Android version, you can choose your preferred options from the menus before downloading. This locates the app you want to download and generates a link for saving the APK file.

Click the download icon next to the APK

In order to install apk file to the Android device, basically we need to do the following. 1. On Android device, navigate to 'Apps' & 'Settings' & 'Security', enable 'Unknown Sources', then tap 'OK' to agree to enable this setting.

This will allow the installation of third party apps and standalone APKs.
