Running Call of Duty 4 without a graphics card can be challenging, as the game typically requires a dedicated graphics card to run smoothly. However, you may be able to run it using integrated graphics if your computer has a strong enough processor with integrated graphics capabilities.

These versions of Windows 10 are known to cause stability issues with Call of Duty: Modern Warfare and are not supported by the game as they are no longer supported by Microsoft. We recommend upgrading Windows 10 to Windows version 1809 or newer.
