In freestyle wrestling, Chimaev is a three-time Swedish National champion. As of 21 September 2024 - he is #9 in the UFC middleweight division. A "banca baixa no aviator" is a phrase used in the world of aviation to describe a situation where the aircraft's pitch is less than 4 degrees between the solo and the three-point landing approach; it is smaller than normal during the 4-degree climb or landing. This condition can be caused by a variety of factors, such as turbulence, wind conditions or pilot errors.

Generally, a low pitch is dangerous if the pilot is not aware of it and does not know how to deal with it. However, if the low pitch is caused by a turbulence or wind condition, it can become a safety hazard. In these cases, the pilot must take immediate action to correct the problem or abort the flight, if necessary.

To avoid pitch conditions, airlines and airports follow rigorous procedures for aircraft and runway maintenance and inspection of aircraft and landing runways. All of this, pilots are trained to detect and deal with pitch conditions during the flight and training.

In summary, a "banca baixa no aviator" is a condition that requires attention and immediate action by the pilot and the solo team to ensure flight safety. Although a low pitch can be a common occurrence, it should never be ignored or underestimated.
